Did you know? Companies are responsible for the actions of third parties working on their job sites. ComplyWorks' Compliance Management Solution helps businesses minimize risk at job sites while maximizing business performance.

Function Feature: Risk Mitigation Process Management

From time to time a company has to hire a contractor that has not met all of the expectations set during prequalification. In ComplyWorks, this contractor's status would be **red** or **yellow**, which would normally mean you should not hire that contractor, but sometimes there is no other option!

Our solution: Risk Mitigation Process Management. This online process requires that all necessary parties understand the risk of hiring the contractor and sign off on working with this contractor, agreeing that this action is required. The steps are simple:

1. Contractor is identified as required to work.
2. Contractor has a **yellow** or **red** compliance rating in ComplyWorks.
3. Initial requestor starts **Risk Mitigation Process Management.**
4. Requestor completes simple form to identify the reason contractor is required and what steps will be taken to decrease risk.
5. Risk Mitigation Process Management is sent to corporate authorizer to ensure risk is understood and accepted.
6. Notification is sent to initial requestor stating whether or not to proceed with hiring contractor.

Easy to Access Resources

Have you seen our hand-picked collection of compliance links? Our team has their eyes and ears open at all times to ensure we are aware of important compliance news, and we have begun compiling information in a single location for anyone to access. Visit our homepage and check out the **Resources** tab; under **Links** you will find:

Useful Quick Links– links to all workers' compensation boards, important insurance information sites, safety organizations, and government and regulatory bodies.

Compliance News – check this page often for links to interesting and informative articles on compliance. Have something to add? We would love to hear your suggestions! Email Charlottes@complyworks.com.
